# IOSH Managing Safely

The Managing Safely course is designed for managers and supervisors in any sector, and any organisation.

It's designed to give managers and supervisors the confidence to advise and give practical solutions when dealing with health and safety issues in their teams.

This course is unlike many other health and safety courses as it's designed to provide candidates with full step-by-step guidance on how to manage health & safety with a clear focus on business needs.

This course covers:

- Introducing managing safely
- Assessing risks
- Controlling risks
- Understanding your responsibilities
- Identifying hazards
- Investigating accidents & incidents
- Measuring performance

At the end of the course candidates will be required to complete the following assessments:

- A short answer test paper.
- A work based practical project.
